Merit-based fellowship awarded during the MRes in Economic Analysis.	

SELECTED PRESENTATIONS

2026	LAGV Conference, Aix-Marseille
2025	SAEe; EWMES; IDEA Alumni Conference; XI Workshop on Structural Transformation and Macroeconomic Dynamics

DATA & METHODS

Data. Construction, digitization, and linkage of large historical and modern microdatasets, including U.S. Census/IPUMS microdata; OCR extraction and census linkage of Library of Congress copyright records; product-by-firm digitization of the 1905 Thomas Register; county and establishment data; and cross-country labor-market and input-output data.

Empirical methods. Panel-data analysis, instrumental variables, shift-share designs, event studies, cross-country analysis, record linkage, and historical data construction.

Quantitative methods. Quantitative macroeconomic and firm-dynamics models, calibration, and numerical solution methods.

Software. Python, Stata, MATLAB, $\text{\LaTeX}$, Microsoft Office.

LANGUAGES & CITIZENSHIP

Languages. Italian and English (native); French (fluent); Spanish (proficient).

Citizenship. Canada and Italy.
